

*Are you a member of the pro-Israel community?*

*Are you interested in a career in the public sector,  
media or government?*

*Do you want to work in Israel?*

The Israel Research Fellowship is a new, paid fellowship seeking to build a community of outstanding young leaders and influential opinion makers. It supports exceptional post-graduates and graduates from around the world who have committed to a year-long, Israel-based fellowship in a major governmental, non-governmental, think-tank or media setting.

Mentored by senior executives in their placements and informed by specially designed conferences, Israel Research Fellows, with their comprehensive knowledge of historical and intellectual trends, serve as articulate spokespeople on Israel and Middle Eastern Affairs.

***We are currently accepting applications for 2012/13  
(The Fellowship year begins September 2012)***
